## DELIVERY TEAMS ARE ABUSED

PEOPLE ARE PRINCIPALLY TO BLAME FOR CONDITIONS.

Grocery Stores Are Forced to Make Many Deliveries to All Parts of the City.

To the Standard.—Noticing the delivery boys in the rain and cold, urging their tired ponies on through the mud in the afternoons and evenings and over rough, frozen ground in the mornings, up hills and down hills, across street car tracks and other jolting, jerking places, one is bound to conclude that here is one thing which, to a considerable extent, causes and accounts for the high prices of groceries and meats. These boys are terribly destructive of horses and wagons. They are as general thing utterly reckless and entirely indifferent to the consequences of the furious rushing about, not seeming to care whether they kill the horses or break the harness, or smash the wagons, or only run over some person, or into some other person's vehicle, or do all of these things at once, and kill themselves to complete the general scheme of wild adventure and dare-devil accomplishment.

When the boys are spoken to and advised to exercise some reason, a little care for others, and a thought for the welfare of the horses, they simply smile and reply that it is the demands of the owner of the store that the goods be delivered, that the wagon is required to make certain places at certain times—and it must be done.

When we go after the merchants we are told that they do not desire the boys to do that way, but, when pressed, they admit that the people demand the service which makes such a course unavoidable, and that the merchants are helpless under this command of the people.

It appears to be useless to argue with the merchants that they have spoiled the people in teaching them to expect such an unreasonable thing as delivering any little article anywhere in the city within an hour or two after the order is given, and that it rests with the merchants to correct the expensive, useless and foolish practice, thus cut down expenses, give the boys reasonable hours for work and relieve the poor, lame, broken-down horses. They simply say that with all of their organization and power of doing some things through organization, there is no way of correcting what they admit to be useless, foolish and extravagant in the delivery system as now carried on.

So it seems that, if anything is to be done about these evils, it must be done by the people. If the people will be reasonable, thoughtful and just, the expenses of the delivery of goods can be cut in the middle and one-half left out. This would start the prices on the down grade.

If the people disregard the welfare of the boys and horses, don't care to see the streets properly and safely used, only severely seek to have their own unreasonable demands gratified; if the housekeeper, instead of ordering reasonable at one time, or buying when down town and carrying the things home in buggy or auto, or in the car, calls upon the merchant for the ill-convenient, expensive, or by personal presence in the store, and directs that a small article be carried to the house in the forenoon, another in the afternoon, and another some time before midnight on Saturdays, then I, personally, hope that the merchants will "stick on" the prices, but I do think that they ought to encourage thoughtful and considerate persons by taxing the people who make such demands, and not the others. There ought to be a sensible settlement of this affair, and the boys will have to be and must be punished for the cruelty to the animals.

Also the lumber dealers and others who overload wagons to be pulled up the street onto the bench, should be arrested by police officers and sheriffs and be punished until that common scene disappears from the streets of Ogden. (Signed) VOLNEY C. GUNNELL

## Is Your Market Listed? If Not, For Your Own Protection Change

In order to answer a number of telephone calls, and also to correct a general existing impression, we beg to inform the public that we are not in the retail business; that we operate no retail markets in the city, but that our U. S. Inspected meats may be obtained at the markets listed below: Sawyer Bros., Chicago Market; Ballard & Belnap, California Market; C. E. ## NEW JOINT AGENT CRONIN ASSUMES HIS DUTIES

A. J. Cronin Comes to Salt Lake From Ogden to Take New Office.

Salt Lake, Dec. 2.—A. J. Cronin was checked in Wednesday as the new joint agent of the Denver & Rio Grande and the Western Pacific. Mr. Cronin assumed his duties as soon as the auditor had found everything in shape.

The new joint agent has long been with the Rio Grande. For the last three and a half years he has been general agent of the company at Ogden. Prior to that time he was fifteen years in the Salt Lake office, ten years of which he was chief clerk. All told, Mr. Cronin has been with the Rio Grande about twenty years. "The business of the Salt Lake office I have seen increase from \$25,000

a month to more than \$450,000," said Mr. Cronin. "When we get the Western Pacific opened up in good shape, we will do a tremendous business. No doubt, for the people of California will welcome the coming of our new road with open arms, and they will be eager to ship their freight over the line."

"The first through freight train will leave San Francisco next Monday, December 6, when the tariff schedules go into effect."

## Millions of Lives Lost

An Awful Toll Collected by Consumption. Many Unnecessary Deaths from this Disease

If people could only understand that systemic catarrh is an internal disease that external applications cannot cure, they would not need to be warned so often about this malady, which, when neglected, paves the way oftentimes for consumption, at the cost of millions of lives every year. Yet catarrh may be cured, if the right treatment is employed.

Catarrh is caused by a general diseased state of the system which leads commonly to annoying and perhaps serious local conditions, which may prove a fertile breeding ground for consumption. External remedies give but temporary ease. The only way to successfully treat catarrh is by employing a medicine which is absorbed and carried by the blood to all parts of the system, so that the mucous membrane or internal lining of the body is toned up and made capable of resisting the infection of consumption and other diseases.

We have a remedy prepared from the prescription of a physician who for thirty years studied and made catarrh a specialty, and whose record was a patient restored to health in every case where his treatment was followed as prescribed. That remedy is Rexall Muc-Tone. We are so positive that it will completely overcome catarrh in all its various forms, whether acute or chronic, that we promise to return every penny paid us for the medicine in every case where it fails or for any reason does not satisfy the user.

We want you to try Rexall Muc-Tone on our recommended plan and guarantee. We are right here where you live, and you do not contract any obligation or risk when you try Rexall Muc-Tone on our guarantee. We have Rexall Muc-Tone in two sizes, 50 cents and \$1.00. Very often the taking of one 50-cent bottle is sufficient to make a marked impression upon the case. Of course in chronic cases a longer treatment is necessary. The average in such instances is three \$1.00 bottles. Remember you can obtain Rexall Remedies in Ogden only at our store—The Rexall Store, T. H. Carr, corner Grant and 25th.

## TAMMANY MEN WORRY ABOUT CHANCES FOR JOBS.

New York, Dec. 1.—Chas. F. Murphy, leader of Tammany hall, arrived today after a post-election rest at Mount Clemons, Mich. Instead of bringing assurances concerning jobs in the new administration, his failure to confer with William J. Gaynor, mayor-elect, has caused much anxiety among the horde of Tammany office seekers.

High hopes had been built by job seekers in the report that they would hold their positions through the intercession of Murphy with the new mayor.

## WARSHIPS CARRYING MARINES ARE ORDERED TO NICARAGUA

(Continued from Page One.)

Knox's Letter. Washington, Dec. 1.—Secretary Knox of the state department late today returned the passport of Felipe Rodriguez, charge d'affaires of the Nicaraguan legation, with a letter scathingly denouncing the Zelayan administration of the government of Nicaragua. The letter is definitely declared to represent the views of President Taft and is about as plain spoken as anything emanating from the state department in many years. The extraordinary feature of the letter is that it seems to evidence an intention on the part of the United States to hold the Zelayan government responsible for the situation in Nicaragua.

## STONE IN KIDNEY

An interesting case was that of Mr. H. L. DeDuffee, a member of the firm of H. C. DeWolfe & Co., of the Crocker Building, San Francisco.

The case was puzzling. There was pain in the kidney with a shanty urine. Examination by seven physicians proved that the blood was from the kidneys, and it was the opinion of all that there was a stone cutting the kidneys, as the least exercise caused a showing of blood.

Four X-Ray pictures were taken, three of them showing a stone half an inch in diameter. To be certain that it was a stone that cast the shadow, a similar stone about the same size taken from a patient was put under him for comparison—both stones showing on the plate.

An operation was about decided upon when Fulton's Renal Compound was recommended to Mr. DeDuffee. He feared the knife and gave it a trial.

Within ten weeks the blood and pain had ceased and in six months he considered himself well.

We also have a three-page letter from an old school physician, a lecturer in one of the San Francisco Medical Colleges, covering a similar case of stone in the kidney. An operation seemed inevitable.

He prescribed Fulton's Renal Compound upon the theory that as it was getting results in Nephritis it ought to have some effect to reduce the inflammation and excessive uric acid that attends Calculus. He was so surprised to get a complete recovery that he thought a record ought to be made of it and gave us the letter above referred to.

Fulton's Renal Compound seems to have about the same percentage of efficiency in stone in the kidney that it has shown in Bright's Disease.

For free literature, address the John J. Fulton Co., 212 First St., San Francisco, Cal.

Fulton's Renal Compound can be had of our agent, Wm. Driver & Son Drug Co.

We desire to advise with every patient who is not getting the usual favorable results by the third week.

States to hold President Zelaya personally responsible for the alleged torture and execution of the Americans, Cannon and Grace, and exhibits the unique situation of one government holding the chief executive of another practically as a common malefactor.

Zelaya is branded as a violator of solemn international obligations, a disturber of the national and international peace, a tyrant whose administration has been a blot upon the name of good government.

Minces No Words.

Secretary Knox virtually announces the recognition of the Nicaraguan revolutionists, declares it to be the conviction of the United States that the revolution represents the sentiment of a majority of the Nicaraguan people, and that there is evidently no responsible government with which this country can deal. He therefore announces that all parties will be held accountable for their actions as affecting the interests of Americans and the peace of Central America.

He further informs Senor Rodriguez, that while he has lost his diplomatic quality, he may still serve as an "unofficial" channel of communication with the faction which he is regarded as representing.

This brings the crisis as near the status of war as it could be brought by executive action without a definite declaration by congress, which will convene next Monday Mr. Knox's letter in all but so many words makes it plain that the action represents the wish and attitude of all the Central American states, with the single exception of Honduras which is regarded entirely dominated by Zelaya. Mexico has its sympathy with the United States, in this matter.

Just what status consular representatives of the United States in Nicaragua now enjoy is not definitely explained. It is explained, however, that Vice Consul Caldera, who has been occupying the legation in Managua, and other consuls in that country, will be given their passports tomorrow. This is the usual method of procedure.

Knox's Letter.

Following is the text of Secretary Knox's letter to Senor Rodriguez, Washington, Dec. 1.—Department of State, Washington, Dec. 1, 1909.—Sir: Since the Washington convention of 1907, it is notorious that President Zelaya has almost continuously kept Central America in a tension or turmoil, that he has repeatedly and flagrantly violated the provisions of the convention, and that he has been occupying the legation in Managua, whose neutrality the conventions were to assure has sought to discredit these sacred international obligations to the great detriment of Costa Rica, Salvador and Guatemala. Those governments, meanwhile, appealed to the United States to strive for the loyal support of the engagements so solemnly undertaken at Washington, under the auspices of the United States and of Mexico.

It is equally a matter of common knowledge that under the regime of President Zelaya republican institutions have ceased in Nicaragua, to exist except in name; that public opinion and the press have been throttled; and that prison has been the reward of any tendency to real patriotism. My consideration for you personally impels me to reiterate abundantly the discussion of the painful details of a regime which unfortunately has been a blot upon the history of Nicaragua and a discouragement to a group of republics which need only the opportunity of free and honest government.

Many Appeals Filed.

In view of interests of the United States and of its relation to the Washington convention, appeal against this situation has long since been made to the government by majority of the Central American republics. There is now added the appeal, through the revolution, of a great body of the Nicaraguan people. Two Americans, who this government is now convinced, were officers connected with the revolutionary forces and therefore entitled to be dealt with according to the enlightened practice of civilized nations, have been killed by direct order of President Zelaya. Their execution is said to have been preceded by barbarous cruelties.

The consulate in Managua is now officially reported to have been menaced. There is a similar culmination of an administration also by a cruelty to its own citizens which has, until the recent outrage, found vent, in the case of this country, a succession of petty annoyances and indignities which many months ago made it impossible to ask an American minister longer to reside at Managua. From every point of view it has evidently become difficult for the United States further to delay more active response to the appeals so long made to its duty, to its dignity, to Central America, and to civilization.

## Endorse Revolutions.

The government of the United States is convinced that the revolution represents the ideals and the will of a majority of the Nicaraguan people more faithfully than does the government of President Zelaya and that its possible control is well high extant as that hitherto so sternly attempted by the government at Managua.

There is now added the fact, as officially reported from more than one quarter, that there are already indications of a rising in the western provinces in favor of a presidential candidate associated with the old regime. In this it is easy to see now elements tending to a condition of anarchy which leaves, at a given time, no responsible source to which the government of the United States could look for reparation for the killing of Messrs. Cannon and Grace, or indeed for the protection which must be assured American citizens and American interests in Nicaragua.

In these circumstances the president no longer feels that the government of President Zelaya that respect, that confidence which would make it maintain with regular diplomatic relations implying the will and ability to respect and assure what is due from one state to another.

The government of Nicaragua, which you have hitherto represented is hereby notified, as will be also the leaders of the revolution, that the government of the United States will hold strictly accountable for the protection of American life and property the factions de facto in control of the western portions of the republic of Nicaragua a too heavy burden of expiating the acts of a regime forced upon them, or to exact from a succeeding government if it have such different politics, the imposition of such a burden. Into the question of ultimate reparation there must enter the question of the existence at Managua of a government capable of responding to demands.

There must enter also the question

## The Best from a Million Bushels —Del Monte Tomatoes

A Tomato, you know, is nearly all water.

If you take off the skin, there is not enough fibre left to hold it together, so that in stewing Tomatoes, you never add water—there is enough without it.

Some canned Tomatoes, most brands, in fact, are watery and mushy, so that when you buy a can you buy more water than real Tomatoes.

Water, at the price of Tomatoes, is expensive. In the Del Monte brand we take out most of the water. We pack over a million bushels of Tomatoes a year, under 400 different labels. Some sell as low as four or five cents for 25c, but Del Monte retails at 12 1/2c per can. But if you will weigh the actual Tomato meat of the cheaper can, after draining off all the water or juice, and then do the same with Del Monte, you will find that Del Monte contains two or three times

as much actual Tomato meat as other brands.

Del Monte is the choice pack of the world's largest canners. We pack all grades of Tomatoes. All are wholesome. All are packed under the most sanitary conditions.

But, they vary in the quantity of Tomato meat contained, as compared to the water or juice. A can of Del Monte brand is nearly all Tomato.

Del Monte Tomatoes are vine-ripened, carefully washed, peeled and cored. It is impossible to have all Tomatoes on even one vine alike. For the Del Monte brand we choose the best. Greater care is used in the handling. A large percentage of the water is taken out. You get the best we know how to make. You are always sure if you get Del Monte.

# Del Monte

Canned Fruits and Vegetables

Packed Where They Ripen

The Day They're Picked

## We Pack Other Brands as Good as Del Monte

But you have no way of knowing them. We put up over four hundred different brands of canned and dried fruits, vegetables, jams, jellies, preserves catsups, honey and condiments. Most of the brands are for dealers who own their own labels.

Quality does not affect the wholesomeness of the goods. All packers, we believe, put up only wholesome

goods. Quality refers to flavor and the quantity of solid vegetable or fruit meat as compared to the water or juice. If you were able to select all other good brands from those of cheaper quality, you would get exactly the same quality as you obtain in Del Monte, but there is no way in which you can tell which are safe, except by specifying Del Monte.
